

HANDPADS

VINCENT diamond handpads guarantee a very quick, economic and high-quality finish on flat and shaped surfaces either on GLASS, CERAMIC and STONE.

- + High quality backing material:

The backing material on VINCENT handpads has an optimized rigidity compared to the other products on the market. This reduces its deformation thus preventing from damaging the upper and lower surfaces of the slab when working the edge.

- + Increased tool life:

Thanks to the premium materials used and the attention to details, VINCENT handpads have a longer life than almost all similar products on the market.

+ Easy to use on any application and material:

VINCENT handpads can be used by anyone and can be easily used for multiple purposes on any material, from stone to glass to ceramics.

- + Improved finish quality:

Thanks to an innovative diamond pattern and optimized diamond fixing, VINCENT handpads guarantee an excellent surface finish.
