

## Rollers / SYSNR LIST

### ANCORA - 8 spirals

Please always verify if diamond coverage is suitable for the tile size of customer ( usually 5-10mm shorter)

Other dimensions and grit sizes are available upon request

Ø	Body length	Diamond coverage	Drawing	Sysnr Grits					
mm	mm	mm		M6	M7	M8	M9	M10	M11 M13
222	595	440	396430				34009668		34008659
222	595	445	396642			34009677			
222	595	580	396861			34202546	34202545		
222	595	586	366432			34043938	34012744		
222	595	590	396402			725548	34012765		
222	595	595	396981			34009702

## Segmented Rollers For Ceramics

For calibrating machines with rotating heads

Various geometries  
and bonds available

Diamond tools with high cutting  
performance, particularly for pre-  
finishing and finishing slabs and  
strips of ceramics

Long lifetime

High machine belt speeds allowed

## Rollers With Continuous Rim

For calibrating and polishing machines with rotating heads

Very good cutting  
performance

Diamond tools with continuous  
rim have been specially  
developed to achieve a high stock  
removal rate combined with  
excellent surface finishes for  
ceramic tiles

Various grits available:  
from coarse to fine
